## 1. Reading Comprehension(16Ms)

**Read the following passage, then answer the questions below:**

Japan is a group of islands in the south east of Asia. It is not a very big country but it has a large population. Tokyo is the capital city. The sea is important for the Japanese. They cultivate pearls in the warm water around the islands. They also grow rice and vegetables. Japan is mainly an industrial country. Some of the best products like radios, televisions, computers, cameras and cars come from Japan and **they** are famous all over the world. So, "Made in Japan" is a trustful label.

The Japanese are very polite and **active** people. They work hard. They even don't like holidays. They love flowers and they welcome their visitors warmly. Old Japanese usually wear traditional clothes called kimonos. The Japanese don't sit on chairs when they eat; they kneel on the floor. They don't use knives, forks or spoons. They use wooden chopsticks. Their favourite food is raw fish and rice. The Japanese writing is very strange. It has no alphabet as in Arabic or English. It has a system of pictures and their writing goes from top to bottom. Japan is a good model of a modern country.

## 2- Reading Comprehension (16 Marks)

### Read the following passage carefully, then answer the questions below:

Everything that is alive needs energy. All animals get the energy they need from food. Think about the human body as an amazing machine. It can do all kinds of activities for us. Food is the fuel that helps keep the amazing machine **running**.

Plants use sunlight to make their own food. Animals are not able to do that. Some animals eat plants, while others eat other animals as meat. Some animals and people eat both plants and animals.

Since plants make their own food using sunlight, the sun's energy is found in plants. The sun's energy is very strong. It loses a lot of its strength by the time **it** goes into a plant.

When we eat plants, we get more of the sun's energy than when we eat animals. That's why it is good to eat fruits and vegetables. When an animal eats a plant, the energy is less strong. The animal also uses its energy to find the plant to eat.

Like a car that has to be filled with gasoline, living things have to eat again and again. Instead of gasoline, living things use food as fuel.

### 3- Reading Comprehension ( 16 Ms )

**Read the following passage carefully, then answer the questions below:**

Some airplanes are made specifically to land on water, but US Airways Flight 1549 was not one of those planes. The plane took off from LaGuardia airport on January 15, 2009 , with 155 people on board. Just three minutes later ,the pilot, Captain Chesley Sullenberger, radioed that the plane was in trouble. It had hit some large geese. The left engine had exploded in fire, smoke, and metal.

Captain Sullenberger quickly realized that the plane couldn't make it back to the airport. Sullenberger turned the plane toward the Hudson River. Many passengers were **tense** and scared, but the flight crew did their best to keep **them** calm. Most passengers lowered their heads and got ready for a rough crash landing.

After several minutes, Captain Sullenberger landed the plane perfectly on the surface of Hudson River. The plane's passengers climbed onto the wings as the plane began to fill with water and sink. Boats from both sides of the river rushed to aid the passengers. The water was icy and cold. As passengers scrambled from the plane to the waiting boats, rescuers handed them blankets, coats, and life jackets to stay warm.

All 155 people were brought to safety, and Captain Sullenberger was celebrated as a hero.

#### 4- Reading Comprehension (16 Ms)

**Read the following text carefully, then answer the questions below:**

A robot is a special kind of machine that moves and follows the instructions which come from a computer. That is why it neither makes mistakes nor gets tired. Some robots can help make cars in factories. Other robots are used to **explore** dangerous places such as volcanoes. **They** can help women do all the housework. Also, they can be used to answer telephone calls. Mainly there are two types of robots: The fixed robot which is kept to a certain place while doing his work with his hands and the mobile robot which moves from place to place using wheels, legs or other moving mechanisms.

Long ago, over 2000 years ago, a famous writer called Homer imagined robots. His robots were made of gold. They cleaned things and they made things. Nobody was able to make a real robot at that time.

The first real robot was made in 1961. It was called Unimate. It was used to help make cars. Today, it is used everywhere. In the future, we will have even more robots. They will do difficult and dangerous things that we cannot do. Robots will help us fight fires, fight sickness and do many of the tasks that we don't or can't do.

## 5- Reading Comprehension

**Read the following text carefully then answer the questions below:**

How much do you know about the history of your favourite foods? Do you know when people started cooking curry dishes? Do you know in which country pizzas or burgers were first made? The facts might surprise you.

Many people think the English found out about curry from people in India in the 1600s. In fact, rich English people were eating dishes made with curry spices hundreds of years before they travelled to India. Shown in the English cook books in 1377, the word “curry” was found first in England.

As for pizza, this dish was probably first made by people in Iran. They were eating round, flat bread with cheese in the 500s. That was nearly 1,000 years before pizza caught on in Italy. Finally, let's look at the truth behind burgers. Many people think burgers are an American food. However, according to some stories, burgers came from Hamburg, Germany. A German , German sailors introduced later the first burger in 1891. Four years created named Otto Kuas w burgers to Americans.

Where foods come from isn't nearly as important as how they taste; as long as they are delicious! So, go get some of your favourite food and enjoy it. (199 words)
