## Reading Comprehension (7)

**Read the following passage carefully, then answer the questions that follow:**

Have you ever walked down streets and noticed that almost every single person is walking with their face down watching a screen? It seems that technology has taken over our lives today! Kids aren't getting outside and playing anymore so they don't have any imagination. Too much technology in our lives means that we don't have real conversations. Technology makes us stressed and frustrated so it's time that we took a break.

Children today don't have any imagination. They spend so much time looking at a screen and playing games that they no longer have the skills needed to be creative and have fun without technology. All this time spent sitting down using phones or tablets is definitely bad for **their** health. Kids should be out in the fresh air, running around and having fun, not shut in a dark, dreary room staring at a screen.

Technology is causing harm to friends and families because they don't have time to make conversations together. Instead of having real conversation, we are having fake conversations using social media. This means that we aren't really showing each other our true selves. Is it really **hard** to put down the phone and have a proper conversation with someone?

Overall, it is very clear that our lives could be much better with less technology. Instead of playing computer games and using social media, children could get outside in beautiful fresh air and enjoy the sunlight. They could be healthier and fitter. This kind of technology is unfortunately stopping people from connecting with each other.

**A) Choose the correct answer from a, b, c and d:**

1- What could be the best title for this passage?

- a) A healthy life
- b) Negative Effects of Technology
- c) Connecting with friends
- d) Good Relations Between Families

2- The opposite of the underlined word "**hard**" in the 3<sup>rd</sup> paragraph is:

- a) fit
- b) real
- c) easy
- d) beautiful

4- Technology is causing harm to friends and families because:

- a) it is useful to play computer games with each other.
- b) children can enjoy their time with their phones.
- c) they don't have time to make conversations together.
- d) it creates a great atmosphere of joy and amusement.

5- According to the passage, one of the following statements is **TRUE**:

- a) The use of phones and tablets all the time is good for our minds.
- b) Good relationships with people is not necessary.
- c) Too much use of phones and tablets is good for health.
- d) Children's real place is outside to play, run and have fun.

### إجابة سؤال التعبير – Writing

لذاكرة كلمة

Do you believe that happiness affects our life? It is the feeling of being happy. There are many sources of happiness. Family, friends and money are the main sources of happiness. Doing sports makes people feel happy. Travelling abroad is another source of happiness.

Happiness is important for everyone. It improves our immune system. It builds strong relationships. People work hard. They also become positive. It helps to solve problems, too.
