## Reading Comprehension ( 110 marks )

**A. Read the following passage carefully, then answer the questions below:**

1- Football (or soccer, as the game is called in some parts of the world) has a long history. Football in its current form arose in England in the middle of the 19th century. However, **alternative** versions of the game existed much earlier and are a part of the football history.

2- The first known ball game which involved kicking took place In China in the 3rd and 2nd century BC under the name *Cuju*. Cuju was played with a round ball. It later spread to Japan and was practiced under ceremonial forms. **Other** earlier variety of ball games had been known from Ancient Greece. The ball was made by shreds of leather filled with hair. It was the Roman culture that would bring football to the British island (Britannica).

3- The most admitted story tells that the game was developed in England in the 12th century. In this century games that resembled football were played on fields and roads in England. This early form of football was also much rougher and more violent than the modern way of playing. An important feature of the forerunners to football was that the games involved plenty of people and took place over large areas in towns. These games caused damage on the town and sometimes death. These would be among the reasons for the arguments against the game that finally was forbidden for several centuries. Nonetheless, the football-like games would appear again in the streets of London in the 17th century.

4- It took, however, long time until the features of today's football had been taken into practice. For a long time there was no clear distinction between football and rugby. There were also many variations concerning the size of the ball, the number of players and the length of a match. An attempt to create proper rules for the game was done at a meeting in Cambridge in 1848, but a final solution to some questions of rules was not achieved. Another important event in the history of football comes about in 1863 in London, when the first Football Association was formed in England. It was decided that carrying the ball with the hands wasn't allowed. The meeting also set a standard size and weight for the ball.

**VII- Summary Making (60 Marks)****Read the following passage, then do as required :**

Some people consider money the most important aim of their living. "The love of money is a root of evil", because some people love money more than they love God. The wage earner must earn money to stay alive. We call it "earning a living." In earlier societies, if a man had no wages he faced literal starvation and death. A supply of food insulated him from the fear of death by starvation. Later, money became the substitute for supplies of food and clothing. The rich begin to feel superior to those who have to earn a living. They can enjoy a life of luxury that is not available to the average person. They are also given tremendous power and can use their money to control and dominate other people. In addition, they are safe from starvation. They think that they can buy health, a family, friends and love just because they have a lot of money. Money has become so important that people lie, cheat, bribe, defame, and kill to get it. The love of money becomes the ultimate idolatry. This is why Paul said, "The love of money is a root of all kinds of evil."

**In a paragraph of FOUR sentences ONLY, summarise and paraphrase the previous passage in an answer to the following question: (4X15 = 60 Marks)**

**Why do the rich begin to feel superior to those who have to earn a living?**
