(General) **Reading Comprehension** **Date: / / 2022**

Read the following passage, then answer the questions below:

Twenty-five years ago, communication between people was very different from communication today. To call friends quickly, we used a telephone to ring them. If time was not important, we wrote a letter and sent **it** by post. For fast written communication, people sent faxes. Although many people still use these ways of communication, they are becoming less **widespread** because of the new technology. Today, the most common forms of personal and business communication are mobile phone calls, text messages and e-mails. Many people now use smart phones with computers which can connect to the Internet and send e-mails.

In the future, the only thing that we can be sure of is that technology is not going to stand still. Scientists are going to continue inventing new, more complex ways of communication. Some experts predict that the next big development will be in visual communication. Small mobile computers with fast Internet connections will probably be the first mobile devices that give us high-quality visual communication, so that we can see the people we are talking to. Further in the future, who knows what will happen? By the year 2023, scientists predict that we will be able to send text messages by the power of thought. A special helmet connected to our brain will turn what we are thinking of into a digital form enabling us to communicate to other people that we know.

a. Choose the correct answer from a), b), c) and d):

1. The best title for this passage could be:
   - **a) Digital Thinking.** **b) Visual Communication.**
   - **c) Communication Development.** **d) The Importance of Communication.**
2. The underlined pronoun "**it**" in line 3 refers to:
   - **a) letter** **b) time** **c) telephone** **d) communication**
3. The underlined word "**widespread**" in line 6 means:
   - **a) weak** **b) common** **c) modern** **d) different**
4. How did people communicate in the near past?
   - **a) They used smart phones.** **b) They sent faxes and letters.**
   - **c) They used mobile computers.** **d) They sent text messages and e-mails.**
5. According to the text, all the following statements are NOT TRUE except:
   - **a) Technology is going to stand still in the future.**
   - **b) We can't connect mobile computers to the Internet.**
   - **c) Communication in the past was the same as nowadays.**
   - **d) Smart phones are one of the most popular means of communication.**
6. The purpose of the writer in writing the passage is to:
   - **a) compare between past and modern computers.**
   - **b) inform us about how people can call each other.**
   - **c) explain how communication changes over time.**
   - **d) persuade people to use modern means of communication.**

b. Answer the following questions in reference to the passage:

7. Why aren't old means of communication used as before?

……

8. How will communication change in the future?

(General) **Reading Comprehension** **Date: / / 2022**

Read the following passage, then do as required below:

Jerry was the kind of person you can never hate. He was always in a good mood and always had something positive to say. He was a unique manager and had several waiters who had followed him around from restaurant to restaurant. **They** followed Jerry because of his attitude. He was a natural motivator. If an employee was having a bad day, Jerry was there telling the employee how to look on the positive side of the situation.

Seeing this style really made me curious, so one day I asked Jerry, "How can you be a positive person all of the time?" Jerry replied, "Each morning I wake up and say to myself, Jerry, you have two choices today. You can choose to be in a good mood or to be in a bad mood.' I choose to be in a good mood. Each time something bad happens, I can choose to be a victim or to learn from it. I choose to learn from it. Every time someone comes to me complaining, I can choose to accept their complaining or to point out the positive side of life. I choose the positive side of life."

Jerry added. "Life is all about choices. You choose how you **react** to situations. You choose how people will affect your mood. You choose to be in a good or in a bad mood. Finally: It's your choice how you live life."
