Expeditions

Dangers

- experience adventure
- dangerous animals
- bad weather
- get lost
- lack of water and food
- long distance

Explorer qualities

- special qualities
- physically strong
- dangerous animals
- bad weather
- lack of water and food
- walk for long distance

Expeditions

Expeditions are journeys where explorers escape the familiar and experience adventure. Explorers face many difficulties there. They may face dangerous animals which hurt people like bears. Also, they may face bad weather that is followed by many problems. Moreover, explorers may get lost, too. They may suffer from the lack of water and food. At last, they may walk for long distance in faraway places.

Explorers must have special qualities to deal with any hardships. An explorers should be physically strong and challenging. He should have determination and patience. He needs to have some skills and work with a team. He must be cooperative and well prepared. I advise all to have these qualities before thinking of that adventure.

Authors

Authors qualities

- great people
- love reading
- writing skills
- highly educated
- good observer
- change life positively

The role of authors in society

- have responsibility
- important issues
- discuss the people's attitudes
- educate the young
- replace bad behaviour
- power of purifying people

Authors

Authors are great people. They love reading and writing very much. They have good writing skills that attract the readers of different ages. A good author should be highly educated and carries a message. He must be a good observer, too. Authors can change life positively.

Authors have responsibility in reforming the society. They can focus on the important issues that people care. They, also, discuss the people's attitudes towards social, economical and political affairs. They educate the young to be active members of the society. Authors replace bad behaviour by good one. At last, I can say that literature has the power of purifying people's souls.

Voluntary Work

Voluntary Foundations

- working for free
- important role
- educate people
- protect sea life
- cleaning campaigns
- be encouraged

Benefits of volunteering

- many benefits
- peace and cooperation
- no crimes
- clean environment
- raise awareness
- rewarded by Allah

Voluntary work

Voluntary work means working for free. Voluntary foundations play an important role to help the environment. They educate people to keep the environment clean and healthy. They protect sea life by cleaning beaches. They organise cleaning campaigns. These voluntary efforts should be encouraged.

Act of giving has many benefits. By volunteering, we share love, peace and cooperation among people. As a result, there will not be crimes. We can live in a clean environment. Voluntary work raises awareness in the society. The most important point is that work is rewarded by Allah.

A Country I visited

Why I chose it

- nice country
- kind and welcoming
- see its touristic attractions
- pluralist country
- many cultures and religions
- Cheap life

Description of this country

- southeast Asia
- capital of Malaysia
- natural products
- Butterfly Park
- monsoonal climate
- love Malaysia

A Country I Visited

Malaysia is a nice country. Malaysian people are very kind and welcoming. I chose travelling to Malaysia to see its touristic attractions. Moreover, it's a pluralist country. I can see many cultures and religions. Life is cheap in Malaysia.

Malaysia lies in southeast Asia. Kuala Lumpur is the capital of Malaysia. Malaysia is rich in natural products. It has the Butterfly Park which houses rare species of butterflies. Also, Malaysia has a monsoonal climate. I love Malaysia very much.

Pollution

Causes/effects of pollution

- suffering from pollution
- fatal problem
- human action
- smoke from cars
- overusing pesticides
- traffic jam

Ways to solve the pollution problem

- decrease the problem
- more trees
- recycle rubbish
- strict rules
- built away from cities
- use renewable sources of energy

Pollution

Nowadays, our planet is suffering from pollution. There are many causes of this fatal problem. The main cause of pollution is human action. It's caused by smoke from cars and factories. Also, overusing pesticides leads to land pollution. Noise pollution comes from traffic jam. Throwing a lot of rubbish and plastic bags in water cause water pollution.

In fact, we should think of some solution to decrease the problem of pollution. Planting more trees solves the problem of air pollution. We should recycle rubbish instead of burning it. There should be strict rules by the government. Factories should be built away from cities. We need to use renewable sources of energy. Moreover, we should keep our environment clean.

Places of Interest in Kuwait

Most interesting places

- pearl of the Gulf
- Mutla Ridge
- house of mirrors
- Tareq Rajab Museum
- Islamic calligraphy
- Bait Al Sadu

Why people visit them

- many reasons
- hiking, and mountain biking
- mirror mosaic
- 30,000 of items
- art of weaving
- advise all

Places of Interest in Kuwait

Kuwait is called the pearl of the Gulf for its interesting places. Mutla Ridge is an ideal place for camping. It is the highest place in Kuwait. Also, the house of mirrors is a charming museum. It's located in Qadsiya. Tareq Rajab Museum is a great museum. It's the largest Islamic calligraphy museum in Kuwait. Bait Al Sadu is a marvelous museum, too.

People can visit these places for many reasons. People go to Mutla Ridge for camping, hiking, and mountain biking. The house of mirrors has prodigious walls of mirror mosaic. Tarek Rajab Museum houses a collection of more than 30,000 of items. You can discover the art of weaving in Bait Al Sadu. At last, I advise all to discover Kuwait by visiting its amazing place
