Carrier pigeons can be trained to carry messages to people. The note is placed into a small skinny can. The can is tied to the pigeon's leg. Then the pigeon flies off to **deliver** the note. Carrier pigeons are good messengers because they are fast and can fly long distances. They also have a good sense of direction. They can even reach places that people can't.

More than 800 years ago, Genghis Khan, an Asian ruler set up pigeon post offices across his lands to get and send notes and messages. As recently as 2010, Cuba used pigeons to send election results to the mountain people.

From high up in the sky, specially trained pigeons can spot orange life jackets in the ocean. Sometimes it is difficult for humans to spot people lost in the sea, especially when the weather is bad. However, pigeons can fly quickly over a large area of water in search of people. **They** are called lifeguard pigeons.
