Reading Comprehension

Read the following passage then answer the questions below:

In England, many parents think that it is important to teach their children how to swim. They think swimming makes them more respected and stronger among their friends. They usually take them to public swimming pools or sports clubs on holidays.

One often sees that parents are always anxious about this issue. They are trying to force their **frightened** children to swim. I believe that pushing the little child to water can be a big mistake. As I see, parents commit another mistake which is to give children a rubber ring or wings to help them. When a child uses these things, he / she has a feeling that swimming is a hard task to do. This makes the child think it is dangerous to get his head under water.

When my children were young, we usually spent the weekends in mountains where there was a circular water tank. It was about two metres deep. I let **them** swim there. I never gave them rubber rings or water wings while they were in water. My eldest son began to jump into the tank. Soon, his brother and sister got used to water.

Read the following passage carefully, then answer the questions below:

A lady and her husband went to meet the president of Harvard. Since they were dressed poorly the president wasn't interested in meeting them. After making them wait for a long time, he agreed to see them. The lady told him, "We had a son who attended Harvard for one year. He loved Harvard. He was happy here. But about a year ago, he was accidentally killed by a careless driver. And my husband and I would like to build a memorial to him, somewhere here "

The president was shocked. "Madam," he said angrily. "We can't put up a statue for every person who attended Harvard and died. If we did, this place would look like a cemetery. "Oh, no, "the lady explained quickly. "We don't want to build a statue. We thought we would like to give a building to Harvard ". The president rolled his eyes then exclaimed, "A building! Do you have any idea how much a building costs? We have over seven and a half million dollars in the physical department at Harvard ". For a moment the lady was silent. The president was pleased. He could get rid of them now. And the lady turned to her husband and said quietly, "Is that all it costs to start a university? Why don't we just start our own? "Her husband agreed. The president was shocked. Mr. and Mrs. Leland Stanford walked away, travelling to California where they established the University that has their name (Stanford), a memorial to a son that Harvard no longer cared about.
