**The Topic (100 Marks)**

Rubrics	Outline	Exposition of ideas and coherence	Paragraphing and number of sentences	spelling	Grammar	Handwriting, spacing and punctuation	Total
	20	60	10	10	10	10	120

**VI- Reading comprehension (110 Marks)**

110

**Read the following passage carefully, then answer the questions below:**

Everyone has a favourite attraction at an amusement park, and I am no different. However, unlike most people who seem to prefer roller coasters, my favourite ride is a little gentler. Every time I go to Coney Island or the Santa Monica Pier, I absolutely have to ride the Ferris wheel.

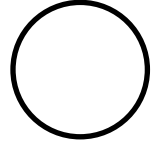

The Ferris wheel is quite **complex**. Riding it is easy, but how it works is complicated. A series of carts are attached to a wheel, which is attached to a rim. That rim rotates vertically around an axis, and gravity keeps the carts upright. As simple as the ride seems, only advanced engineers can make safe and fun Ferris wheels.

While the Ferris wheel is not as thrilling as a roller coaster, it is still very exciting. Nevertheless, I don't seek Ferris wheels out because of their excitement. Rather, I find them very relaxing. At the top of the Ferris wheel, you get beautiful sights of the park. You also get a sense of calm that you don't get in the hustle and bustle of the park below. Additionally, Ferris wheels are also gorgeous to look at when they are lit up at night. In fact, the original Ferris wheel was designed as much to be seen as to be ridden.

The first Ferris wheel was made by and named after George Washington Gale Ferris, Jr. He designed it for the Chicago World's Fair in 1893. It was the tallest attraction there, standing 264 feet high. However, visitors to the fair were impressed by the size of the ride as well as the mechanics of it. In 1893, anything that was not turned by hand was considered a sight to see. And the wheel, **which** was a machine, was truly incredible to see.

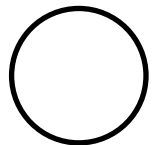

Ferris wheel technology has only improved since then. Most of today's Ferris wheels are much larger than that first one. Today, the Ferris wheel is the most common amusement park ride. But that does not mean you should take them for granted. Instead, be thankful for Ferris' invention. The next time you're at an amusement park, don't just look up at the impressive wheel in the sky on your way to a newer attraction. Take it for a spin!

**A-From a, b, c and d choose the correct answer: ( 5 x 10 =50 Marks)**

28. What is the main idea of paragraph (3)?
- Childhood memories of amusement park.
  - The history of Ferris wheel
  - Why the author likes riding Ferris wheel
  - How Ferris wheels improved
29. What does the underlined word '**which**' in paragraph (4) refer to?
- ride
  - wheel
  - sight
  - hand
30. What is the **OPPOSITE** of the underlined word '**complex**' in paragraph (2)?
- impressive
  - beautiful
  - exciting
  - simple
31. We can understand from the passage that the author wants to:
- inform us of the author's favourite amusement park rides.
  - show the original design of Ferris wheels and how they work today.
  - describe the history of Ferris wheels and why they are so popular.
  - explain the history of Ferris wheels and why the author likes them.
32. According to the passage, the Ferris wheel was originally designed for:
- Coney Island
  - The World's Fair
  - Disney World
  - Singapore

**B) Answer the following questions (4x15= 60 Marks):**

33. How does the Ferris wheel work?

.....

.....

34. When are Ferris wheels very attractive to look at?

.....

.....

35. In addition to being exciting, relaxing and gorgeous, what makes Ferris wheels entertaining?

.....

.....

36. What impressed the visitors at the Chicago World's Fair?

.....

.....

### **VII- Summary Making (60 Marks)**

**Read the following passage carefully, then answer the question below:**

60

Google was the first search engine that began considering links. Links are those blue underlined words that take you to other pages when you click on them. Google's search results were much better than their rivals. It wasn't just the great search results that led to Google becoming so well liked. It also had to do with the way that they presented their product. Google's homepage was, and still, clean. There's nothing but the logo, the search box, and a few links. These days Google has its hands in everything from self-driving cars to helping humans live longer. Though they have many other popular products, they will always be best known for their search engine. The Google search engine has changed our lives and our language. It is a standing example that one good idea can change the world.

**In FOUR sentences, summarise and paraphrase the previous passage in answer to the following question: (4X15=60 Marks)**

**Why has Google search engine become so popular?**

.....
