

Science

Science is very important in our life .It makes •
our life easy and better . Scientists do a lot of
experiments . They invent new inventions . My
favourite subject is science . I'd like to be a
scientist when I grow up .

Oil

Kuwait has a lot of oil . It's black . It's very •
expensive . It's found under the ground .It's
exported to other countries. It's made into
petrol. We need petrol for our cars.

Life Straw

The life straw is a great invention . It's made of plastic . It's easy to use . It's used for purifying the dirty water. It has chemicals inside . The chemicals stop the bacteria from getting inside the mouth.

Saving Energy

Energy is very important in our life. We can't live without it . A lot of people waste energy . All of us should save energy . We should turn off the lights when we go out . We should turn off the TV and the A/C . We should use the energy- saving light bulbs .

Failaka Island

Last week, I went to Failaka Island . I went •
with my family . We went by boat . We saw
the temples . We visited the museum . We
had a nice day there .

Marie Curie

Marie Curie was a great scientist . She studied •
Maths and physics . She won two Nobel prizes She
found a cure for cancer . She saved many lives .
She died of cancer .

Al-Khwarizmi

Al-Khwarizmi was a great scientist .He was •
born in Khawarizm .He lived in Baghdad . He
was the father of algebra .He was interested in
geography . He made the map of the world.

Favourite sport

To : Haya

From: Noura

Dear Haya,

Thanks for your last e-mail . I'm writing this e – mail to tell you about my favourite sport. My favourite sport is tennis . I play it in the club . I need a racket and a net to play it . I always play with my friends . We play it twice a week .It's good for heart and muscles .

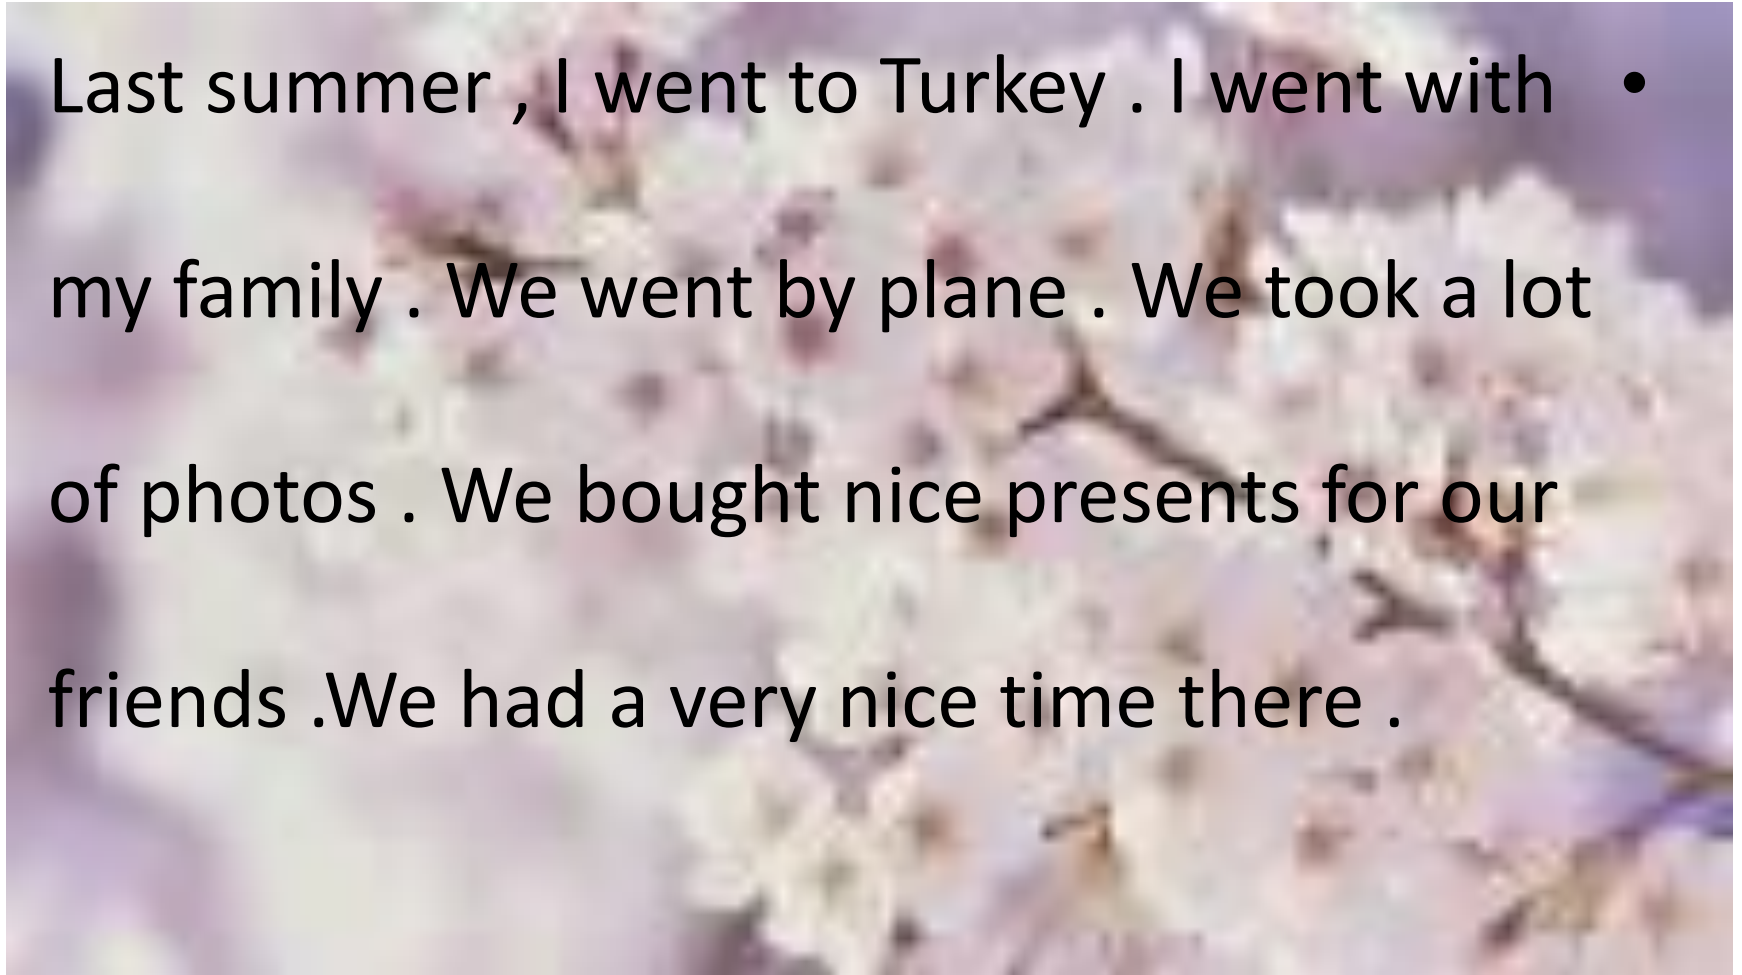

Kuwait

Kuwait is my country . It lies on the Arabian Gulf . •
It's a small country . Kuwait City is the capital .
The weather is very hot in summer and cold in
winter . There a lot of interesting places and malls
there . I love Kuwait .

My holiday

Last summer , I went to Turkey . I went with •
my family . We went by plane . We took a lot
of photos . We bought nice presents for our
friends .We had a very nice time there .

The water cycle

**Water gets into the sky and goes back to the earth •
again. First, the sun heats water. Then, water changes
into water vapour. After that, the water vapour
changes into clouds by the cool air. Finally ,the clouds
fall as rain.We can't live without water.**

Light bulb

The light bulb is an important invention . It •
gives us light . It is very cheap . It was invented
Thomas Edison. We should use the energy -
saving light bulbs . They use less energy .
