B) Reading Comprehension (14 Marks)**Read the following passage then answer the questions below:**

Chess is called the game of kings. People have been playing it for over 500 years. Chess is based on an older Indian game. The chess we play today is from Europe. Chess is a two-player game. One player uses the white pieces. The other uses the black pieces. Each piece moves in a **special** way. One piece is called the king. Each player has one. The game ends when a player loses his king. There are more rules, but those are the basics.

Some people think that chess is more than a game. They think that it makes the mind stronger. Good chess players use their brains. They think about what will happen next. These skills are useful in life and in chess.

Chess is not just for people. Computers have been playing chess since the 1970s. At first, they made mistakes. As time went on, they grew stronger. In 1997, a computer beat the best player in the world. **It** was a very big computer called Deep Blue. By 2006, a cell phone could beat the best players in the world.

B. Reading Comprehension (14 Marks)

Read the following passage then answer the question below:

Everything that is alive needs energy. All animals get the energy they need from food. The human body is an amazing machine. Food is the fuel **that** helps keep the amazing machine running.

The sun is the only source of energy for plants. Without the sunlight, plants can never grow and give their fruits. Plants use sunlight to make their own food. Animals are not able to do that. When animals want to get energy, they eat plants. Some animals eat other animals as meat. Some animals, like people, eat both plants and animals.

Since plants make their own food using sunlight, the sun's energy is found in plants. When we eat plants, we get this energy. That's why it's healthy and **useful** to eat fresh fruits and vegetables.

Like a car that has to be filled with petrol, living things have to eat again and again to get the energy needed for life. Instead of petrol, we use food as fuel. It's said that "Good food means good energy. Good energy means good health."
