Many children want to have pets. A pet is an animal that's kept at home as a companion and treated kindly. But parents don't like the idea of having a pet dog or a cat in the house. Dogs and cats are both popular pets. Some people prefer having pet cats as they are nicer in some ways. They are cleaner and quieter than dogs. Cats are safer. Dogs sometimes bite people in the streets, but cats never do. Friendly cats are easy to take care of. You don't have to spend much time with a cat. In fact, many cats prefer to be alone.

Some cats help people when there are problems. For example, on farms and in old houses, cats can help. They kill small animals like mice and rats. But cats can be a problem in cities. In Rome, for example, thousands of cats live in the streets and old buildings. They make a lot of noise, and they are dirty and dangerous.

In fact, pets can be good for children. This can be especially important if there is only one child. Children can also learn a lot from pets. They can learn many things about animals and the natural world and how to take care of them. They do not forget what they learn about their pets. This is very much important for all children.
