Read the following passage, then answer the questions that follow:

Sami and his sister Marie visited their grandparents on their farm. Sami picked up a slingshot to play with it out in the woods. As he was walking back home, he was shooting little stones all over the place. Accidentally, he shot the attic window and broke it. He was **shocked**. In a panic, he ran and came in the house from the back door. Marie saw everything from the garden, but she didn't say anything.

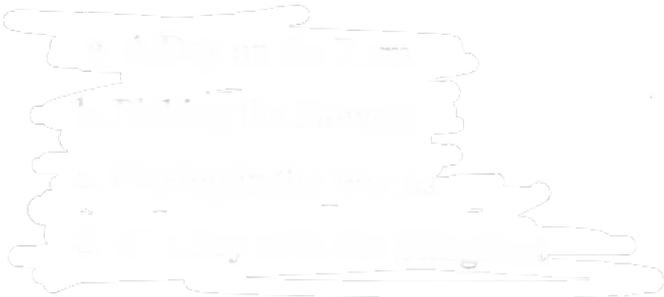

After lunch, Grandma asked Marie to wash the dishes. Marie whispered to Sami, "Remember the broken window?" Sami got nervous because his sister knew about the window. He was afraid that she may tell his grandparents about **it** and they might punish him. So, he did the dishes instead of Marie.

Later, Grandpa asked if the children wanted to go fishing. Grandma said that she needed Marie to help her take the trash out and clean up. Marie said that Sami wanted to help, so Marie went fishing and Sami stayed to help. After several days, Sami was very tired and angry. He told Grandma that he had broken the attic window.

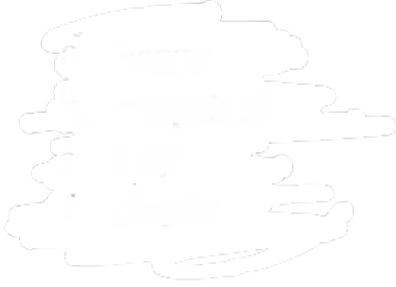

Grandma gave him a hug and said, "I know. I was picking some flowers and I saw everything. I forgive you because I love you. I was just wondering how long it would take you to tell the truth." Marie apologized for what she did, and grandma punished her and made her wash all the dishes for a week.
